This section, Information System (IS), involves the planning, documentation, security/confidentiality and production of the necessary reports relating to program operations through the utilization of automated data processing services at the State and local level.

- A. System Planning and Operation 246.4(a)(12): describe the procedures for planning, approving and monitoring Automated Data Processing (ADP) goods and services, and any interaction with other statewide ADP operations which may take place, including system costs for services and security.
- **B.** Participant Characteristics Minimum Data Set (MDS) 246.4(a)(11)(i): All State agencies currently collect all required Minimum Data Set items. Please confirm that your State agency will continue to do so. For the Supplemental Data Set (SDS), which varies by the capacity of State systems, please describe the data items which are reported electronically regarding participant characteristics and whether these items are currently being collected or if there are plans to collect them in the future.
- C. WIC Systems Functional Requirements Checklist 246.4(a)(8); (9); (11); (12); (13); (14); (15) and (18): Describe those functions which are currently incorporated into the IS or which are planned to be incorporated in the future.

Description of IS changes that occurred in the past year:

6. Description of IS changes planned for the upcoming year.

B. Participant Characteristics Minimum Data Set

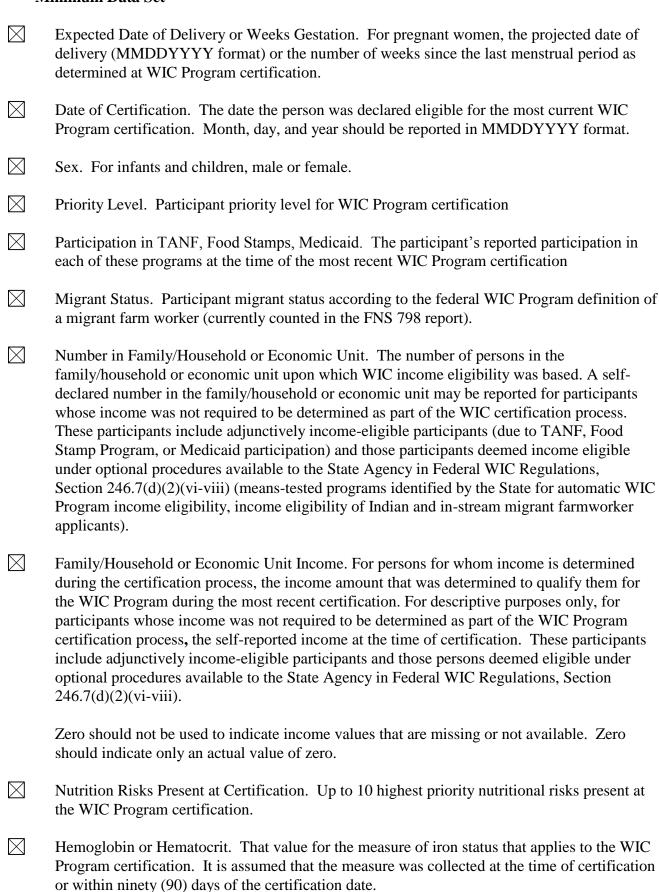

The Participant Characteristics (PC) Minimum Data Set (MDS) contains data items which are reported to FNS electronically by State agencies in April in even numbered years on all or a State-representative sample of participants. The MDS has required data items which must be collected and reported. The Supplemental Data Set (SDS) is comprised of data items which State agencies have agreed are desirable to collect and report at the national level. Please check MDS or SDS data items the State agency currently collects in its Information Systems and those MDS or SDS data items it is planning to collect within the next two years.

REQUIRED: Participant Characteristics Minimum Data Set

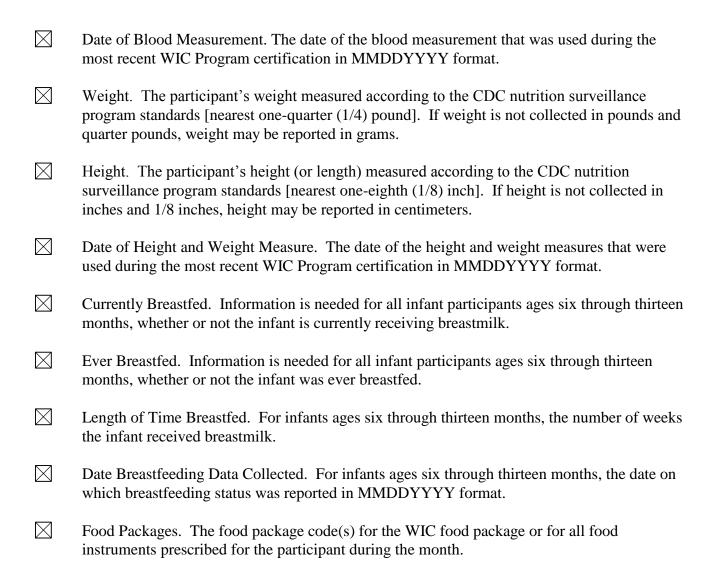

State Agency IS Collects:

State Agency ID. A unique number that permits linkage to the WIC State agency where the participant was certified.
Local Agency ID. A unique number that permits linkage to the local agency where the participant was certified as eligible for WIC benefits.
Service Site ID. A unique number that permits linkage to the service site where certified. Either local agency ID or service site ID may be reported according to the level the State Agency feels appropriate. At a minimum, State agencies must provide agency names and addresses for each ID provided on their files.
Case ID. A unique record number for each participant which maintains individual privacy at the national level. (This may not be the case number used in the State agency's IS for the individual.) Participant or Case IDs for each participant should continue to maintain individual privacy at the national level.
Client Date of Birth: Month, day and year of participant's birth reported in MMDDYYYY format.
Client Race/Ethnicity. The classification of the participant into one of the five (5) racial/ethnic categories: For race: American Indian or Alaskan Native; Asian; Black or African American; Native Hawaiian or Other Pacific Islander; and White. For ethnicity: Hispanic or Latino; Not Hispanic or Latino.
Certification Category. The categoryone of five (5) possible categoriesunder which a person is certified as eligible for WIC benefits: pregnant woman; breastfeeding woman; postpartum woman (not breastfeeding); infant (under 12 months); or child (12-59 months).

B. Participant Characteristics Minimum Data Set

B. Participant Characteristics Minimum Data Set

B. Participant Characteristics Supplemental Data Set

State Agency IS:

OPTIONAL: Supplemental Data Set

Collects	Plans to Collect
	Date of First WIC Certification: Date the participant was first certified for the WIC Program in MMDDYYYY format. For pregnant, breastfeeding and postpartum women, this applies to the current/most recent pregnancy and not to prior pregnancies.
	Educational Level: For pregnant, breastfeeding and postpartum women, the highest grade or year of school completed. For infants and children, the highest grade or year of school completed by mother or primary caretaker.
	Number in Family/Household on WIC: The number of people in the participant's family/household receiving WIC benefits.
\boxtimes	☐ Date Previous Pregnancy Ended: For pregnant women, the date previous pregnancy ended in MMDDYYYY format.
	Total Number of Pregnancies: For pregnant women, the total number of times the woman has been pregnant, including this pregnancy, all live births and any pregnancies resulting in miscarriage, abortion or stillbirth.
	Total Number of Live Births: For pregnant women, the total number of babies born alive to this woman, including those who may have died shortly after birth.
	Pre-pregnancy Weight: For pregnant women only, the participant's weight immediately prior to pregnancy. Pre-pregnancy weight may be reported either in pounds and ounces or in grams.
	Participant's Weight Gain During Pregnancy: For breastfeeding and postpartum women, the participant's weight gain during pregnancy as taken immediately at or prior to delivery. Weight gain during pregnancy may be reported in either pounds and ounces or in grams.
	Birth Weight: For infants and children, the participant's weight at birth measured according to the CDC nutrition surveillance program standards (lbs/ounces). Birth weight may be reported in either pounds or ounces, or in grams.
	Birth Length: For infants and children, the participant's length measured according to the CDC nutrition surveillance program standards (1/8 inches).

B. Participant Characteristics Supplemental Data Set

Birth length may be reported in either inches and eighth inches or in centimeters.
Participation in the Food Distribution Program on Indian Reservations. The participant's reported participation in this program.

C. WIC Systems Functional Requirements Checklist

The following checklists were taken from the WIC Functional Requirements Document (FRED) which was provided as guidance to State agencies on functions they should consider incorporating into their Information Systems. Please check those functions/capabilities which the State agency system currently performs or plans to perform within the next two years.

State Agency System <u>Performs</u>	State Agency System <u>Planned</u>		Automated Core Function/Capabilities
		1. 2.	Calculates the date certification is due to expire. Assigns the participant a nutritional risk code and assigns a priority level. (CPA confirms the code is correct.)
		2a.	Assigns one risk code.
		2b.	Assigns up to 3 risk codes.
		2c.	Assigns up to 6 risk codes.
\boxtimes		2d.	Assigns more than 6 risk codes.
		3.	Calculates the applicant's household income and flags individuals whose income exceeds program standards.
		3a.	Converts incremental income (weekly, monthly) to an annual figure.
\boxtimes		4.	Associates family members.
\boxtimes		5.	Statewide data is maintained to facilitate families transferring within the State.
		6.	Transfers certification data to the central computer facility electronically either in real time or batch mode.
		7.	Captures or documents the nutrition education provided each participant as well as the topics covered.
\bowtie		8.	Uses table-driven food packages.
$\overline{\boxtimes}$		8a.	Uses standard pre-defined food packages.
$\overline{\boxtimes}$		8b.	Enables easy food package tailoring.
		8c.	Performs edits to prevent over-issuance during food package creation.
		9.	Enables food instruments to be printed when the participant is present for pick-up, i.e., on-demand.
		10.	Captures or documents the name of the programs to which the participant was referred.
\boxtimes		11.	Performs food instrument reconciliation.
Ħ	Ħ	12.	Produces standard Dual Participation Report.
Ħ		13.	Produces standard Integrity Profile (TIP) Report.
$\overline{\boxtimes}$		14.	Produces standard Rebate Billing Report.

III. INFORMATION SYSTEM (IS)C. WIC Systems Functional Requirements Checklist

State Agency System Performs	State Agency System <u>Planned</u>		Automated Core Function/Capabilities
		16.	Produces Participant Characteristics Datasets.
\boxtimes		17.	Captures basic transaction data by vendor.
		18.	Flags high-risk vendors through peer group analysis of redemption data.
		18a.	Identifies vendors with high average food instrument redemptions.
\boxtimes		18b.	Identifies vendors with a narrow variation in redemptions.
		19.	Assigns a maximum value for each food instrument type.
		19a.	Checks redeemed price against maximum and rejects any food instruments exceeding the maximum amount.
\boxtimes		20.	Captures source of income.
	$\overline{\boxtimes}$	21.	Performs automated dietary assessment.
\boxtimes		22.	Has automated growth charts.
		23.	Has point of certification data entry, i.e., a personal computer at each "station" within the clinic.
\boxtimes		24.	Allows for ad hoc reporting.
